Changes to Material of Caps & Case/Base for JWM & JWL Rockers

Type of Change:

- Engineering Part Number
- Product Appearance

I. There will be a revision to the material of the rocker cap and the case/base for JW Series Rocker Switches, the JWM and JWL models only. The cap material, formerly polyphenylene ether (PPE), will be revised to polyamide. The case and base material of melamine resin will change to melamine phenol resin.

This change will apply to all JWM and JWL standard and custom switches. Effected standard part numbers are listed on pages 3-6.

Changes to Material of Caps and Case/Base for JWM and JWL Models

JWM & JWL Models	Before Change	After Change
Cap Material	Polyphenylene ether (PPE)	Polyamide
Case/Base Material	Melamine Resin	Melamine Phenol Resin

Notes

There are no changes to any of the switches' mechanical functionality, specifications or dimensions. Contact information is below if more details are needed.

Effective Date

Changes in material of the caps and cases/bases for JWM and JWL Rockers will be effective October 2024. However, the end of sales date may be subject to change depending on inventory of parts.

Changes to Identification on Switch Housing for JWM & JWL Rockers

Type of Change:

- Engineering
- Part Number
- Product
- Appearance

2. Sides of the switch housing for JWM and JWL models of the JW Series will reflect changes in identification, including an updated NKK Switches logo. The UL and CSA symbols will be replaced with the cULus logo; the UL standard will change from UL 1054 to UL 61058-1. As shown on the *Before* and *After* illustrations below, the arrangement of the ratings and certifications will be different on the case. These revisions will apply to JWM and JWL standard and custom JW Series switches. Effected standard part numbers are the same as for Change 1, listed on pages 3-6.
